

NEW BUGATTI BOOK – 15 SEPTEMBER 2021

The book presents the story of the Bugatti cars 1910 – 1940, tells of the early Danish importers and details 22 cars of a number of Bugatti types, which were imported to Denmark as new or used cars in the years from before the First World War and until 1940.

The Danish-owned Bugatti cars were sports cars, passenger cars and luxury cars, which often had exciting ownership stories and even in some cases distinguished themselves in racing on blocked country roads, wide beaches or racetracks.
